

Fabrice Mouhartem

CV

LIP, É.N.S. Lyon,
46 allée d'Italie,
69364 Lyon Cedex 07
M +33 (0)6 38 61 92 22
T +33 (0)4 72 72 83 52
E fabrice.mouhartem@ens-
lyon.org
Nationality: French

Education

- PhD student**, L.I.P., É.N.S. de Lyon, France, Privacy-Enhancing Cryptography with Advanced Functionalities. **2015-now**
Advisor: Benoît Libert
- Master d'Informatique Fondamentale**, É.N.S. de Lyon, France, (university-level institution training teachers and researchers, entrance to which is based on a competitive exam. Equivalent to a Master of Science Degree in Computer Science). **2013-2015**
Cum Laude
- Licence d'Informatique Fondamentale**, É.N.S. de Lyon, France, (equivalent to a Bachelor of Science Degree in Computer Science). **2012-2013**
Cum Laude
- Classe préparatoire scientifique**, Lycée Charlemagne, Paris. **2010-2012**
(Post secondary preparatory class in science for competitive exam to the É.N.S.)
- Baccalauréat Scientifique**, Lycée d'Arsonval, Saint-Maur-des-fossés, Major : Maths, Physics, Biology. **2010**
Cum laude

Experience

Research

- Supervision of a one week internship**, É.N.S. de Lyon, Lyon, France. **May 2016**
Make a ninth grade student intern discover fundamental research laboratories
- 5 Month Research Internship**, É.N.S. de Lyon, Lyon, France, Design a lattice-based dynamic group signature scheme. **Spring 2015**
- 3 Month Research Internship**, Katholieke Universiteit Leuven, Leuven, Belgium, Implementation in MAGMA of the state of the art *discrete logarithm* solving algorithm in small characteristic with improvements on them. **Summer 2014**
- 6 Week Research Internship**, Inria, Rennes, France, Works on the BARRA simulator to implement techniques to improve energy efficiency of GPUs using data redundancy. **Summer 2013**
Introduction to research.

Teaching

- Teaching Assistant**, É.N.S. de Lyon, Lyon, France. **2015-now**
- 2017-2018
- Computer Architecture (L3). 32h
- 2016-2017
- Computational Complexity (M1). 20h
 - Cryptography and Security (M1). 20h
 - Operating Systems and Networks (L3). 32h
 - Jury for M1 thesis. 2h
- 2015-2016
- Programming Language Theory (L3). 32h
 - Computational Complexity (M1). 20h
 - Remedial courses in Probability (L3). 2h
- Oral examination**, Lycée du Parc, Lyon, France, Oral exercises to post-secondary students to train them for competitive exams. **2013-2015**

Administrative Responsibilities

Scientific Council, É.N.S. de Lyon, Lyon. 2015–2017
Student representative at the scientific council of É.N.S. de Lyon.

Popularisation

Origami in Math and C.S., É.N.S. de Lyon/MMI, Lyon. April 2017
Open access origami workshop about mathematical origamis.

Origami in Math and C.S., É.N.S. de Lyon/MMI, Lyon. 2017
Organisation of a bimonthly origami's workshops.

Animator at Fête de la Science, É.N.S. de Lyon, Lyon. October 2015, 2016 & 2017
Organisation of a workshop about mathematical origamis.

Programming Contests

Contestant for the ACM ICPC SWERC, Universidad do Porto, Porto, Portugal. November 2014 & 2015
Team algorithmic competition, participation in C++

Contestant for the ACM ICPC SWERC, Universitat de València, Valencia, Spain. November 2013

Contestant for Prologin, EPITA, Paris, France. 2013
Individual algorithmic & A.I. competition, participation in C++

Publications

Conferences

Benoît Libert, San Ling, Fabrice Mouhartem, Khoa Nguyen, and Huaxiong Wang. Adaptive Oblivious Transfer with Access Control from Lattice Assumptions. In *Asiacrypt'17*, 2017. To appear.
<https://hal.inria.fr/hal-01622197>.

Benoît Libert, San Ling, Fabrice Mouhartem, Khoa Nguyen, and Huaxiong Wang. Signature Schemes with Efficient Protocols and Dynamic Group Signatures from Lattice Assumptions. In *Asiacrypt'16*, pages 373–403, 2016. <http://ia.cr/2016/101>.

Benoît Libert, San Ling, Fabrice Mouhartem, Khoa Nguyen, and Huaxiong Wang. Zero-Knowledge Arguments for Matrix-Vector Relations and Lattice-Based Group Encryption. In *Asiacrypt'16*, pages 101–131, 2016. <http://ia.cr/2016/879>.

Benoît Libert, Fabrice Mouhartem, and Khoa Nguyen. A Lattice-Based Group Signature Scheme with Message-Dependent Opening. In *ACNS'16*, pages 137–155. Springer, 2016.
<https://hal.inria.fr/hal-01302790>.

Benoît Libert, Fabrice Mouhartem, Thomas Peters, and Moti Yung. Practical “Signatures with Efficient Protocols” from Simple Assumptions. In *AsiaCCS'16*, pages 511–522. ACM, 2016.
<https://hal.inria.fr/hal-01303696>.

Talks

Conference talks

Asiacrypt, Hanoi, Vietnam, 25 min. December 2016
Signature Schemes with Efficient Protocols and Dynamic Group Signatures from Lattice Assumptions.

ACNS, University of Surrey, United Kingdom, 25 min. June 2016
A Lattice-Based Group Signature Scheme with Message-Dependent Opening.

AsiaCCS, Xi'an, China, 25 min. June 2016
Practical “Signatures with Efficient Protocols” from Simple Assumptions.

Seminars

Oxford Crypto Seminar, Oxford, UK, 1 hour. November 2017
Adaptive Oblivious Transfer with Access Control from Lattice Assumptions.

- Rennes Crypto Seminar**, Rennes, France, 1 hour. June 2017
Adaptive Oblivious Transfer with Access Control for NC1 from LWE.
- Journées du GT-C2**, Inria Nancy – Grand Est, La Bresse, 30 min. April 2017
Adaptive Oblivious Transfer with Access Control for Branching Programs.
- Lattice meeting**, É.N.S. de Lyon, France, 1h30. April 2017
Adaptive Oblivious Transfer from LWE.
- Caen Crypto Seminar**, Caen, France, 1 hour. November 2016
Signature Schemes with Efficient Protocols and Dynamic Group Signatures from Lattice Assumptions.
- RAIM**, Banyuls-sur-Mer, France, 30 min. June 2016
Group Signatures and Lattice-Based Cryptography.
- AriC Crypto Fair**, É.N.S. de Lyon, France, 10 min. June 2016
Lattice-Based Group Encryption.
- Journées du GT-C2**, Université de Toulon, France, 25 min. October 2015
A Dynamic Group Signature Scheme based on Lattices.
- Lattice meeting**, É.N.S. de Lyon, France, 1h30. October 2015
Lattice-based group signature for dynamic groups.
- Séminaire AriC**, É.N.S. de Lyon, France, 1h. September 2015
Lattice-based dynamic group signature.

Popularisation

- Origami and computational complexity**, MFPP's National Days, Blois. May 2017
Popularisation talk about the link between origami and computational complexity.
- Rencontres du troisième cycle**, É.N.S. de Lyon, With Simon Castellan. February 2017
10 minutes presentation of what is a PhD in Computer Science.
- Origami and computational complexity**, APMEP's National Days, Lyon. October 2016
Popularisation talk about the link between origami and computational complexity.
- Fête de la Science**, É.N.S. de Lyon, Lyon. October 2016
Popularisation talk about zero-knowledge proofs.
- Al-Kindi cryptography contest**, É.N.S. de Lyon, Lyon. June 2016
Overview of modern cryptography: the case of e-voting.
- Recreational Mathematics Seminar**, É.N.S. de Lyon/MMI. October 2014 & March 2016
Two popularisation talks: on *zero-knowledge proofs* and *mathematical origamis*.

Languages

French: Native **German:** Basic
English: Fluent **Malagasy:** Basic

Computer Skills

Use of Linux and Windows. Knowledge in Microsoft Office & \LaTeX usage. Proficient in C/C++ and OCaml. Familiar with Python/Sage, Bash scripting, gnuplot and magma CAS.

Interests

Paper folder, dancer (rock'n'roll, waltz, chachacha ...), table tennis player, and also popularisation on Wikipedia.

Origami

- Vice-president of the MFPP**, Paris. 2017-now
Vice-President of the French Origami Association
- F. Mouhartem Flying duck. In *Origami du vivant. Pliages du monde qui bouge, nage ou vole*. Vol. 2. pp. 13–14. Ed. M. Lucas. ISBN: 978-2-9556489-1-9
