1 Employment history

1998–1999

Teacher of mathematics, Lycée Charles de Gaulle, Rosny-sous-Bois, France

1999–2005

Teacher of mathematics, Université Pierre-Mendès-France

Grenoble 2, France

2005–2008

Assistant professor in computer science, Université Panthéon-Sorbonne,
Paris 1, France

2008– 2011

Researcher at CNRS, LIAFA, Université Paris-Diderot, Paris 7, France

2011– 2015

Junior researcher (CR) at CNRS, LIP, École Normale Supérieure de Lyon

2015–present

Senior researcher (DR) at CNRS, LIP, École Normale Supérieure de Lyon

2 Education

1995

Degree in Statistics and Economy at ENSAE (National School of Statistics and Economic Administration).

1997

Agrégation de Mathématiques (French competitive exam for teachers in high schools and universities).

2001

Master in Operation Research and Combinatorics, Joseph Fourier University, Grenoble.

Magna Cum Laude. Master Thesis : *The compactness argument in Combinatorics*. Supervisor Sylvain Gravier.

2004

Doctoral Dissertation in Mathematics and Computer Science.

Perfect Graphs: Structure and Algorithms,

Joseph -Fourier University, Grenoble 1, Leibniz Laboratory, IMAG, Grenoble, France.

Defended the 28th of September 2004.

Committee : F. Maffray (advisor), G. Cornuéjols (referee), B. Reed (referee), M. Burllet, J. Fonlupt and J.-L. Fouquet.

2009

Habilitation thesis (HDR)

Structure of classes of graphs defined by forbidding induced subgraphs,

University Paris-Diderot, Paris 7, LIAFA,

Paris, France.

Defended the 15th of December 2009.

Committee: M. Chudnovsky (referee), M. Conforti (referee), J.-P. Delahaye, M. Habib (referee), F. Maffray, S. Thomassé (referee).

3 Administrative Duties

2003 – 2004

Member of the departemental committee, Leibniz laboratory.

2014 – 2015

Team leader for team MC2, LIP.

2015 – 2018

Head of the computer science department of ENS de Lyon.

2017 – 2022

Member of comité de pilotage des EPIT

2021 – 2023

Head of LIP

2024 – present

Deputy head of LIP

4 Student supervision

4.1 Postdoc supervision

- Raphael Machado, Université Paris 7. December 2010–January 2011.
Now researcher at National Institute of Metrology, Quality and Technology (Inmetro), Rio de Janeiro, Brésil
- Irena Penev, École Normale Supérieure de Lyon. 2013–2015.
Now Assistant professor at Charles University, Prague, Czech Republic
- Nick Brettell, École Normale Supérieure de Lyon. 2014–2015.
Now Lecturer at Victoria University of Wellington, New Zealand

4.2 PhD supervision

- Pierre Aboulker, Université Paris 7. *Excluding slightly more than a hole*, defended on June 24, 2013.
Now assistant professor at ENS Paris
- Théophile Trunck, École Normale Supérieure de Lyon. *Trigraphes de Berge apprivoisés*, defended on September 17, 2014.
Now engineer et Dataiku
- Khang Le, École Normale Supérieure de Lyon. *Detecting and Coloring some Graph Classes*, defended on June 8, 2018.
- Ni Luh Dewi Sintari, École Normale Supérieure de Lyon. *Width Parameters on Even-Hole-Free Graphs*, defended on June 29, 2021.
Accessit of the “Charles Delorme” graph theory thesis prize 2022.
- Cléopée Robin, Université Grenoble Alpes, supervised jointly with Myriam Preissmann. *Hereditary classes of graphs: From structure to coloring*, defended on October 22, 2021.
Now postdoc at Caen
- Pegah Pournajafi, École Normale Supérieure de Lyon. *Chi-boundedness, geometric graph theory, and Burling graphs*, defended on July 7, 2023.

4.3 Undergraduate student supervision

- Master in Computer Science, Joseph Fourier University, Grenoble. *Study of self-complement graphs*, by Lætitia Boiron, 2004.
- Master in Computer Science, Joseph Fourier University, Grenoble. *Generating self-complement graphs*, by Sylvain Bauchau, 2005.
- Master in Computer Science, Joseph Fourier University, Grenoble. *Detecting induced subgraphs*, by Zhang Mei, 2005.
- Master in Operation Research, University Paris 1, Paris. *Searching graphs*, by Khaled Kadi, 2008.
- Master in Operation Research and Combinatorics, University Grenoble 1 Joseph Fourier, Grenoble. *Detecting induced trees*, by Liu Wei, 2009.

- Master Recherche Advanced Mathematics, École normale supérieure de Lyon. *Some simple cases of Scott's conjecture*, by Amine Abdelkader, 2009.
- Master de mathématiques et applications, OJME, University Paris 6 Pierre et Marie Curie, *Structure of wheel-free graphs*, by Pierre Aboulker, 2010.
- Théophile Trunck. Master d'informatique fondamentale, École Normale Supérieure de Lyon, 2011.
- Lan Anh Pham. Master d'informatique fondamentale, École Normale Supérieure de Lyon, 2015.
- Edin Husic. Master d'informatique fondamentale, École Normale Supérieure de Lyon, 2017.
- Ni Luh Dewi Sintiar, Master d'informatique fondamentale, École Normale Supérieure de Lyon, 2018.
- Pegah Pournajafi, Master d'informatique fondamentale, École Normale Supérieure de Lyon, 2018.

5 Science management

5.1 Grants

- PHC Pavle Savić grant, jointly awarded by EGIDE, an agency of the French Ministère des Affaires étrangères et européennes, and Serbian Ministry for Science and Technological Development, 2010.
- Member of Project 174033, supported by the Ministry of Science, Technology and Development, Republic of Serbia. Graph theory and mathematical programming with applications to chemistry and computer science. Leader: Slobodan Simić
- Member of ANR jeune chercheur Heredia, 2011–2014.
- Head of ANR Stint, 2014–2017.
- Local head of ANR DIGRAPH, 2020–2024 (head: Frédéric Havet).
- PHC Proteus grant, jointy with Martin Milanić. Beyond Sparsity: Graph Classes, Width Parameters, and Algorithms, 2022–2023.

5.2 Events organisation

- Organisation of the Discrete Mathematics Seminar of Leibniz Laboratory, Grenoble, 2003–2005.
- Organisation of the workshop on the “lonely runner” conjecture, Grenoble, may 2004.
- Organisation of the mini-symposium “graph theory and combinatorial optimization”, Congrès de la SMAI, june 2007.
- Creation and organisation of the Seminar “MDOD”, Université Panthéon-Sorbonne, 2007–2008.
- Organisation of the Seminar “Algorithmique et Combinatoire”, LIAFA, Paris, 2008–2011.

- Organisation of “A one-day conference on structural graph theory”, LI-AFA, Paris, January 2011.
- Organisation of a Workshop on χ -bounded classes, LIP, ENS Lyon, March 2012.
- Organisation of “Rencontres Internationales sur les méthodes de décomposition de graphes”, CIRM, Marseille, 19–23 January 2015, co-organised with Stephan Kreutzer (University of Berlin) Christophe Paul (CNRS - Université Montpellier) and Paul Wollan (University of Rome).
- Organisation of the Graph@Lyon Seminar, Université de Lyon, 2015–2018. Co-organised with Aline Parreau.
- Co-chair of ICGT 2018, organized in Lyon, July 2018.
- Organizer of Seymour is Seventy, Lyon, June 2020 (postponed to June 2022 because of the covid crisis).

5.3 Short stays abroad

- Universidade Federal do Rio de Janeiro, Brasil, November 2008.
- University of Oxford, England, February 2010.
- Union University, Belgrad, Serbia, June 2010.
- Nihon University, Tokyo, Japan, July 2010.
- Union University, Belgrad, Serbia, February 2011.
- Université Libre de Bruxelles, Belgium, March 2011.
- Union University, Belgrad, Serbia, November 2011.
- Leeds University, Leeds, England, October 2012.
- Leeds University, Leeds, England, May 2016.

5.4 Outreaching

- 2012 –2014. Member of the committee of Maison des Mathématiques et de l’Informatique, Lyon.
- June 2013 and May 2014. Organifation “stage hippocampe” et l’ENS de Lyon : welcoming highschool students at the lab.

Outreaching talks

- Regards croisés, ateliers doctoraux transdisciplinaires, Université de Toulouse, March 2015. *Coloration de graphes*.
- Rallye Mathématique de l’académie de Lyon, May 2015. *Les nombres cycliques*.
- Séminaire de la détente mathématique, MMI, Lyon, February 2016. *Consonance, dissonance et distances*.
- Les rendez-vous d’Ésope : Plaisir des sciences, Rians, September 2019. *Consonance, dissonance et distances*.
- Fête de la science, ENS de Lyon, October 2021. *Consonance, dissonance et distances*.

- Sémin'art, Agend'art Lyon, December 2021. *La musique, la physique et les maths.*
- Fête de la science, ENS de Lyon, October 2022. *Consonance, dissonance et distances*, conjointement avec le Conservatoire National de Musique et de Danse de Lyon.
- Exposé de l'AFIS de Lyon, Lyon, November 2022. *Consonance, dissonance et distances.*

5.5 PhD committees

- Member of the committee of the thesis of Nicolas Dehry, defended in December 2008. *Multicoupes et sous-graphes induits : complexité et algorithmes.*
- Member of the committee of the thesis of H el ene Topart, defended in May 2011. * tude d'une nouvelle classe de graphes : les hypotriangul es.*
- Member of the committee of the thesis of Marwane Bouznif, defended in July 2012. *Algorithmes g en eriques en temps constant pour la r esolution de probl emes combinatoires dans la classe des rotagraphes et fasciagraphes. Applications aux codes identifiants, dominants-localisateurs et dominants-total-localisateurs.*
- Member of the committee of the thesis of Petru Valicov, defended in July 2012. *Probl emes de placement, de coloration et d'identification.*
- Member (referee) of the committee of the thesis of Antoine Mamcarz, defended in June 2014. *About graph decompositions of trigraphs and graph searches.*
- Member (referee) of the committee of the thesis of Ana Karolina Maia de Oliveira, defended in November 2014. *Subdivisions of digraphs.*
- Member of the committee of the thesis of Johann Benchetrit, defended in May 2015. *Propri et es g eom etriques du nombre chromatique : poly edres, structure et algorithmes.*
- Member of the committee of the thesis of Jean-Florent Raymond, defended in November 2016. *Structural and algorithmic aspects of partial orderings of graphs.*
- Member (referee) of the committee of the thesis of Andrea Munaro, defended in December 2016. *Sur quelques invariants classiques et nouveaux des hypergraphes.*
- Member of the committee of the thesis of Lucas Pastor, defended in November 2017. *Coloration, ensemble ind ependant et structure de graphe.*
- Member (referee) of the committee of the habilitation of Jean-S ebastien Sereni, defended in February 2018. *Sur des aspects alg ebriques de la coloration de graphes : coloration fractionnaire et nombre de colorations.*
- Member (referee) of the committee of the thesis of Alexis Cornet, defended in December 2018. *Algorithmes et r esultats de complexit e pour des probl emes de graphes avec contraintes additionnelles.*
- Member (referee) of the committee of the thesis of Benjamin Bergougnoux, defended in February 2019. *Matrix Decompositions and Algorithmic Applications to (Hyper)Graphs.*

- Member of the committee of the thesis of Lucas Isenmann, defended in December 2019. *Des graphes planaires vers des plus hautes dimensions.*
- Member (referee) of the committee of the thesis of Samuel Mohr, defended in August 2020. *Rooted structures in graphs.*
- Member (referee) of the committee of the habilitation of Vincent Limouzy, defended in January 2021. *From graph classes to enumeration of minimal dominating sets.*
- Member of the committee of the thesis of Paul Ouvrard, defended in March 2021. *Problèmes de reconfiguration dans les graphes.*
- Member of the committee of the thesis of Caroline Brosse, defended in September 2023. *Efficient enumeration algorithms for minimal graph completions and deletions.*
- Member of the committee of the habilitation of Binh-Min Bui-Xuan, defended in November 2023. *Temporality, geometry, and efficient algorithms of graphs.*
- Member (referee) of the committee of the thesis of H el ene Langlois, defended in December 2023. *Kernels and quasi-kernels in directed graphs.*

5.6 Miscellaneous

- Referee for several journals including *Journal of Combinatorial Theory Series B*, *Journal of Graph Theory*, *Discrete Mathematics*, *Discrete Applied Mathematics*, *Applicable Analysis and Discrete Mathematics*.
- 2014 – 2016. Member of the committee for prix de th ese “Gilles Kahn” de la SIF.

6 Teaching

1992 – 1998

Tutorial classes in preparatory classes for french “Grandes  coles” (Lyc ees Charlemagne, Lavoisier and Chaptal, Paris) : Mathematics, Maple and programming in Pascal.

1995 – 1998

Tutorial classes at ENSAE: Unix System, Linear Algebra, project follow up in C Language.

1998 – 1999

High School teacher in Mathematics, Charles-de-Gaulle High School, Rosny-sous-Bois, France.

1999 – 2004

Full time teaching position as Professeur agr eg e at University Pierre Mend es France, Grenoble 2, France. Various courses (globally more than 1,000 hours) including:

- Mathematics: Linear Algebra, Arithmetics, Boolean Calculus.
- Statistics: Probability, Statistical Tests, Analysis of Variance.
- Computer Science : Decidability, Turing Machines, Automatas, Algorithms, Programming in Java and Pascal.

2005 – 2008

Assistant Professor at University Paris 1, Panthéon-Sorbonne, Paris, France.

Various courses:

- Mathematics: graph theory, combinatorial optimisation, linear programming, optimisation on convex sets. Linear algebra (teaching in english).
- Computer Science: programming in C, programming in C++ for finance (teaching in english).

2008 – 2011

Course “graphes et optimisation combinatoire”, master second year, at University Paris 1, Panthéon-Sorbonne, Paris, France (until 2010).

Course “algorithmes avancés”, master second year MPRI, University Paris 7, Paris Diderot, France (until 2011).

Course for PhD students in Science about outreaching toward highschool students, Université de Lyon, 2012–2014.

2013 – 2015

Course “Graphs and polynomials”, master second year Master d’Informatique Fondamentale, jointly with Pascal Koiran and Stéphane Thomassé, ENS de Lyon.

2016 – 2018

Course “Graph decompositions: From Tree-Width to Perfect Graphs”, second year Master d’Informatique Fondamentale, jointly with Stéphane Thomassé, ENS de Lyon.

2018 – 2020

Course “Principles of fundamental computer science”, second year Master of physics, complex systems, ENS de Lyon.

8 Talks

Plenary talks

- Journées Graphes Algorithmes, Clermont-Ferrand, France, November 2012. *Théorèmes de décomposition et dégénérescence*.
- The Combinatorial Optimization Workshop, Aussois, France, January 2016, organised by K. Aardal, M. Conforti and F. Margot. *Recent progress on coloring perfect graphs (in a combinatorial way)*.
- Workshop Franco-brésilien de Graphes et Optimisation Combinatoire, Redonda, Ceará, Brasil, March 2016, organised by C. Linhares Sales and F. Havet. *Recent progress on coloring perfect graphs*.
- 8th Czech-Slovak International Symposium on Graph Theory, Combinatorics, Algorithms and Applications, Prag, Czech Republic, July 2022, organised by M. Loeb and J. Kratochvíl. *From even-hole-free graphs to treewidth*.
- 49th International Workshop on Graph-Theoretic Concepts in Computer Science, WG 2023, Fribourg, Switzerland, June 2023, organised by Bernard Ries, Daniel Paulusma, Stephanie Fasel and Felicia Lucke. *Triangle-free graphs of large chromatic number*.

Invited talks

- Workshop on Graph Theory, Mathematisches Forschungsinstitut, Oberwolfach, Germany, March 2007, organised by R. Diestel, A. Schrijver and P. Seymour. *Decomposing Berge graphs and detecting balanced skew partitions*

- Session on Structural Graph Theory, Spring Southeast Sectional Meeting of the AMS, Baton Rouge, USA, March 2008. Organised by M. Chudnovsky. *On graphs that do not contain a cycle with a unique chord.*
- JSPOC5, honoring Jack Edmonds' 75th birthday, Paris, France, April 2009. Organised by K. Cameron and A. R. Mahjoub. *Even pairs in Berge graphs.*
- Workshop on Graph Colouring and Structure, Princeton, USA, May 2009. Organised by M. Chudnovsky, P. Seymour and R. Thomas. *Berge graphs with no balanced skew partition and no homogeneous pair.*
- Workshop on Graphs and Algorithms, Bertinoro, Italy, December 2009. Organised by M. Chudnovsky, K. Kawarabayashi and P. Wollan. *The k -in-a-tree problem for graphs of girth at least k .*
- Workshop on Graph Colouring, Haifa, Israël, August 2010. Organised by R. Aharoni, E. Berger and M. Chudnovsky. *Excluding subdivisions of a bull.*
- Centenary of Celina de Figueiredo and Frédéric Maffray, Grenoble, France, September 2010. Organised by L. Esperet, M. Preissmann, A. Sebő and Z. Szigeti. *Perfect graphs: many old things and several new things.*
- 2nd Workshop on Graph Decompositions, Theoretical, Algorithmic and Logical Aspects, CIRM, Luminy, France, October 2010. Organised by C. Paul. *Seven open questions about detecting induced subgraphs.*
- Danish Graph Theory Meeting, Kolding, Denmark, April 2011. Organised by J. Bang-Jensen, M. Kriesell and B. Toft. *Decomposition theorems for classes of graphs defined by constraints on connectivity.*
- Workshop on Graphs and Algorithms, Bertinoro, Italy, December 2011. Organised by M. Chudnovsky, K. Kawarabayashi and P. Wollan. *Optimizing in Berge trigraphs.*
- VMS-SMF Joint Congress, session Discrete Mathematics, Hue, Vietnam, August 2012. Organised by C. Crespelle and Phan Thi Ha Duong. *Coloring Berge graphs with no balanced skew partitions.*
- Danish Graph Theory Meeting, Nyborg, Denmark, November 2012. Organised by J. Bang-Jensen and B. Toft. *Decomposition theorems and degeneracy.*
- EPSRC Durham Symposium Graph Theory and Interactions, England, July 2013. Organised by P. Cameron, N. Peyerimhoff and A. Vdovina. *Truemper configurations.*
- Workshop on Graphs and Algorithms, Bertinoro, Italy, December 2013. Organised by M. Chudnovsky, K. Kawarabayashi and P. Wollan. *The stable set problem is FPT in bull-free graphs.*
- Meeting in honor of András Sebő, Grenoble, France, april 2014. Organised by N. Brauner, V. Jost, F. Maffray, F. Meunier, M. Preissmann and Z. Szigeti. *Isolating highly connected induced subgraphs.*
- STRUCO meeting on Graph theory and sparse structures, Prague, October 2014. Organised by P. Charbit and J. Nešetřil. *Isolating highly connected induced subgraphs.*
- Coloring graphs at the Technion, Haifa, Israël, July 2015. Organised by R. Aharoni, E. Berger, M. Chudnovsky and R. Meshulam. *χ -boundedness and chords.*

- Geometric and Structural Graph Theory, Banff, Canada, August 2017. Organised by B. Mohar, J. Pach et P. Seymour. *Polynomial χ -boundedness*.
- Danish Graph Theory Meeting, Nyborg, Denmark, August 2018. Organised by J. Bang-Jensen and B. Toft. *Connected greedy colouring in claw-free graphs*.
- 40 Years of Graphs and Algorithms, a conference in celebration of the achievements of Michel Habib, on the occasion of his retirement, Paris, France, October 2018. Organised by P. Charbit V. Limouzy R. Naserasr L. Nourine and C. Paul. *The induced linkage problem*.
- Barbados Graph Theory Workshop, Holetown, Barbados, April 2019. Organized by S. Norin, P. Seymour and D. Wood. *Layered wheels*.
- Workshop on even-hole-free graphs, Belgrade, Serbia, April 2019. Organized by N. Trotignon and K. Vušković. *Truemper configurations*.
- Graph Colouring: from Structure to Algorithms, Dagstuhl, Germany, July 2019. Organized by M. Chudnovsky, D. Paulusma and O. Schaudt. *Layered wheels*.
- A tribute to Frédéric Maffray, Grenoble, France, September 2019. Organized by Nicolas Bousquet, Louis Esperet, Benjamin Lévêque, Alantha Newman, Myriam Preissmann, András Sebő, Matej Stehlik, Zoltán Szigeti and Nicolas Trotignon. *Odd pairs of cliques*.
- New Perspectives in Colouring and Structure, Banff, Canada (Online), March 2020. Organized by Alex Scott, Bojan Mohar and Paul Seymour. *Widths of even-hole-free graphs*.
- British Combinatorial Conference, Durham (Online), July 2021. Minisymposium on Graph coloring organized by Irena Penev. *Burling graphs revisited*.
- New Perspectives in Colouring and Structure, Banff, Canada (Online), October 2021. Organized by Alex Scott, Bojan Mohar and Paul Seymour. *Burling graphs revisited*.
- Workshop on Graph Theory, Mathematisches Forschungsinstitut, Oberwolfach, Germany, January 2022. Organised by Dan Král', J. Geelen and A. Scott. *Burling graphs revisited*
- Barbados Graph Theory Workshop, Holetown, Barbados, March 2022. Organized by S. Norin, P. Seymour and D. Wood. *When all holes have the same length*.
- 10th workshop on Graph Classes, Optimization, and Width Parameters (GROW), Koper, Slovenia, September 2022. Organized by Sergio Cabello and Martin Milanič. *From even-hole-free graphs to treewidth*.
- 10th workshop on Graph Classes, Optimization, and Width Parameters (GROW), Koper, Slovenia, September 2022. Organized by Sergio Cabello and Martin Milanič. *From even-hole-free graphs to treewidth*.
- CoSP Workshop Unfinished, Prague, Czech Republic, November 2023. Organized by Martin Loibl. *Is there a minimal non- χ -bounded hereditary class?*

Contributed talks

- Journées graphes algorithmes, Dijon, France, April 2003. *A class of perfectly contractile graphs.*
- France–Israel Expert Workshop on Graph Classes and Algorithms, Haifa, Israel, April 2004. *Algorithms for perfectly contractile graphs.*
- GT04, a conference in memory of Claude Berge, Paris, France, July 2004. *Algorithms for perfectly contractile graphs.*
- Journées graphes algorithmes, Grenoble, France, September 2004. *On the structure of self-complementary graphs.*
- ICGT'05, 7th International Colloquium on Graph Theory, Hyères, France, September 2005. *On the structure of self-complementary graphs.*
- Journées graphes algorithmes, Orléans, France, November 2006. *Decomposing Berge graphs and detecting balanced skew partitions.*
- Graphs and Optimization VI, Cademario, Switzerland, August 2007. *Detecting induced subgraphs.*
- Journées graphes algorithmes, Paris, France, November 2007. *Detecting induced subgraphs.*
- Journées graphes algorithmes, Sophia Antipolis, France, November 2008. *A structure theorem for graphs with no cycle with a unique chord and its consequences.*
- 8th French Combinatorial Conference, Orsay, France, June 2010. *2-joins.*
- 7th Slovenian International Conference on Graph Theory (Bled'11), Bled, Slovenia, June 2011. *Detecting a subdivision of a net.*
- 6th workshop on Graph Classes, Optimization, and Width Parameters (GROW), Santorini, Greece. *The stable set problem is FPT in bull-free graphs*, October 2013.
- Meeting in honor of András Sebő, Grenoble, France, April 2014. Organised by N. Brauner, V. Jost, F. Maffray, F. Meunier, M. Preissmann and Z. Szigeti. *Isolating highly connected induced subgraphs.*
- 9th International colloquium on graph theory and combinatorics (ICGT 2014), July 2014, Grenoble, France. *Isolating highly connected induced subgraphs.*

Seminars

- Journée Combinatoire Rhône-Alpes, Lyon, France, April 2003. *Local properties of large collections of sets.*
- Séminaire de Mathématiques Appliquées, Université de Bordeaux, France, April 2005. *Detection of induced subgraphs.*
- Séminaire de Mathématiques Discrètes et Sciences Sociales, École des Hautes Études en Sciences Sociales, January 2006. *Decomposing Berge graphs*
- Séminaire de Mathématiques et Informatique pour les Réseaux, École Nationale Supérieure des Télécommunications, Paris, April 2006. *Graph coloring using even pairs contraction*
- Séminaire de Combinatoire Algébrique et Géométrie, Université Pierre et Marie Curie, Paris, June 2006. *Decomposing Berge graphs and detecting balanced skew partitions*

- Séminaire du LIAFA, Université Denis Diderot, Paris, February 2007. *Decomposing Berge graphs and detecting balanced skew partitions*
- Séminaire Mathématiques Discrètes, Optimisation et Décision, Université Paris 1 Panthéon-Sorbonne, Paris, November 2007. *Sur les graphes ne possédant pas de cycle avec une seule corde.*
- Séminaire du LRI, Université Paris 11, Orsay, March 2008. *Un théorème de structure pour les graphes ne possédant pas de cycle avec une seule corde.*
- Semaine discrète, Université Grenoble 1, Grenoble, April 2008. *Un théorème de structure pour les graphes ne possédant pas de cycle avec une seule corde.*
- Séminaire Mathématiques Discrètes, Optimisation et Décision, Université Paris 1 Panthéon-Sorbonne, Paris, November 2008. *Le problème 4-dans-un-arbre pour les graphes sans triangles.*
- Seminar, Universidade Federal do Rio de Janeiro, Brasil, November 2008. *Decomposing Berge graphs and detecting balanced skew partitions.*
- Seminar, Universidade Federal do Rio de Janeiro, Brasil, November 2008. *A structure theorem for graphs with no cycle with a unique chord and its consequences.*
- Séminaire ALGco, LIRMM, Université Montpellier 2, December 2008. *Le problème 4-dans-un-arbre pour les graphes sans triangles.*
- Séminaire SIESTE, École Normale Supérieure de Lyon, January 2009. *Décompositions de graphes.*
- Séminaire Maths Discrètes, G-SCOP, Grenoble, September 2009. *Combinatorial optimization with 2-joins.*
- Journées ALADDIN, LABRI, Bordeaux, November 2009. *Excluding induced subgraphs.*
- Séminaire Algorithmique et Combinatoire, LIAFA, Paris, January 2010. *Graphs with no induced subdivision of K_4 .*
- Seminar, University of Oxford, England, February 2010. *Decomposition of classes of graphs defined by excluding induced subgraphs and χ -boundedness.*
- One day conference “Graphs structure and algorithms”, Union University, Belgrade, Serbia, June 2010. *Combinatorial optimization with 2-joins.*
- Seminar, Nihon University, Tokyo, Japan, July 2010. *Detecting induced subgraphs.*
- Séminaire Mathématiques Discrètes, Optimisation et Décision, Université Paris 1 Panthéon-Sorbonne, Paris, October 2010. *Quelques cas de la conjecture de Scott.*
