

**XXXVII Biennial Meeting of the Spanish Royal Society of Physics.
Symposium on Complex Systems. Zaragoza, 17-18 July 2019.**

The Symposium on Complex Systems aims to cover all the fields of Complex Systems Science. The symposium will include a plenary talk as well as oral presentations selected from the abstracts received and poster sessions if deemed necessary. On July 18th in the morning, Prof. Mario Rasetti, from Politecnico of Torino and Founder and President of the ISI Foundation, will give the plenary talk.

All works whose subjects fit within Complex Systems Science are welcome. We invite you to submit a one-page abstract until April 8th, 2019, via this link: goo.gl/zhkQ3T

**International workshop on Fluid Physics of Life, 21 - 25 October 2019
taking place at the MPIPES in Dresden, Germany.**

More details can be found on the attached announcement and on the event's web page through <https://www.pks.mpg.de/de/fplife19/>
Looking forward to seeing you there!
