MISCELLANEOUS

GSNP Student T-Shirt Design Competition

The Topical Group on Statistical & Nonlinear Physics of the APS is running a t-shirt design competition for GSNP student March Meeting attendees.

To participate, create a graphical way to convey themes relevant to GSNP science.

You may use your own work as inspiration, but entries will be judged by how well the design embodies the appeal of statistical and nonlinear physics in general.

You should also write a brief (<~200 word) text description (for the judges and website) explaining the context for the design. A US\$500 prize will be awarded to the winning design. The contest is now open for entries.

The deadline for submissions is December 2, 2019.

Details can be found on our contest website, <https://gsnpaps.wixsite.com/home>.

Students who have not been members previously are eligible for a free one-year membership. See <https://www.aps.org/membership/student.cfm>.

Please encourage your students to become members and enter the competition.
