**Physics of Biological Active Matter session, APS March Meeting 2021
March 15-19, 2021, online**

A focus session titled Physics of Biological Active Matter at the APS March Meeting will have two invited talks:

Hélène Delanoë-Ayari, Institut Lumière Matière, Université de Lyon, France

Probing cell monolayer active rheology with a Stokes flow experiment

Sho Takatori, University of California at Santa Barbara, USA

Motility-induced buckling and glassy dynamics regulate 3D transitions in bacterial colonies. Please submit your abstracts for contributed talks before Oct. 23.

Look for session 04.15.00 in the sorting categories! Abstract submission here.

POST-DOC POSITIONS

2021 Mossman Fellowship at Yale Physics, Application due Nov 1, 2020

The Yale Physics Department invites applications for the Yale Mossman Postdoctoral Fellowship. This fellowship is intended to support promising physicists in the early stages of their careers. This year's fellowship will be in any subfield of physics. The fellowship provides a three-year appointment with a competitive stipend, discretionary annual research fund, and comprehensive health insurance. For more information please see <https://physics.yale.edu/yale-mossman>. Interested candidates should submit their application online. Application materials include a CV, a publication list, a minimum of three letters of recommendation, and a statement of research interest. Review of applications will begin immediately but applications received by November 1, 2020 will receive full consideration.
