

Weekly newsLetter in Statistical Physics: conferences, academic jobs and post-doc positions

CONFERENCES

Infos about SIFS Young Seminars series

The Società Italiana di Fisica Statistica (Italian Society of Statistical Physics) organizes the SIFS Young Seminars, a series of seminars on topics of Statistical Physics monthly delivered by young researchers, i.e. students, doctoral students or researchers who have received their PhD within 5 years. The seminars are held online monthly, with two speeches in the same session, and will also be made available offline via the official SIFS YouTube channel.

The first event with seminars from Lorenzo Caprini (GSSI) and Lorenzo Piroli (MPI für Quantenoptik) is scheduled on Thursday 14th January 2021 - 16.30

Rome Time. Details can be found at the web page <https://www.fisicostatistica.org/young-seminars-sifs>

From: Rosario Nunzio Mantegna <rn.mantegna@gmail.com>

POST-DOC POSITIONS

Postdoctoral position on chemo-hydrodynamics at the Université libre de Bruxelles (ULB), Belgium

The Nonlinear Physical Chemistry Unit of ULB is looking for a postdoc to perform a theoretical analysis of the influence of gravity on the propagation of reaction-diffusion fronts. The successful candidate will develop reaction-diffusion-convection models to back-up the analysis of experiments performed in microgravity by the European Space Agency. More info :

From: Anne De Wit <adewit@ulb.ac.be>

Postdoctoral position in Quantum control, Aston University, Birmingham, UK

for excellent candidates who are interested in the intersection of quantum physics and control theory sciences, broadly described. More details about the job are given in the job description document which can be accessed at <https://jobs.aston.ac.uk/Vacancy.aspx?ref=R200352>

From: Randa Herzallah <r.herzallah@aston.ac.uk>
