CONFERENCES

Conference on “Stochastic Models & Experiments in Ecology and Biology”.
22-25 June 2021, European Center of Living Technology, Venice (IT).

The aim of the conference is to bring together scientists with different background - people from biology, physics and mathematics - interested in stochastic models in ecology and microbial ecology, to discuss issues and exchange methods and ideas. Call for abstracts will close on April 1st, 2021. Deadline for registration is April 15th, 2021. Life and Entropy journals will publish a Joint Special Issue which will focus on the topics discussed in the conference. POST-DOC POSITIONS

Postdoctoral fellowship funded by the Simons Collaboration "Cracking The Glass Problem", Montpellier, France and, Cambridge, UK

Postdoctoral fellowship supervised by Ludovic Berthier to elaborate on a recent breakthrough in simulations of supercooled liquids and glasses (the swap Monte Carlo algorithm) to elucidate their dynamical properties at unprecedentedly low temperatures. Send a CV, a motivation letter and have two recommendation letters sent to ludovic.berthier@umontpellier.fr. Deadline for applications is April 15, 2021.
